

## Densitometer to determine the soot number

(Scale of 1:1)

The Densitometer BRIGON RT120 RZ is an exact and value for money instrument for determining the soot number. The instrument displays the soot number in a range of 0.0 to 10.0 in steps of 0.1. Due to its very short calibration time and the small dimensions, this instrument can be used universally for testing cars, trucks, forklifts, etc. The instrument comes with a battery charger in a rugged ABS case.

### Technical Specifications

Display range:	0.0 ... 10.0 in steps of 0.1
Measuring space:	Ø 3 mm
Power supply:	NiMH accumulator 9 Volt
Dimensions:	LWH 148 x 56 x 22 mm
Weight:	130 g (incl. accumulator)

### Scope of delivery

- Densitometer RT120 RZ
- Comparison scale
- NiMH accumulator 9 Volt
- Battery charger
- ABS case
