

BRIGON – Smoke Tester Extension

The Smoke Tester Extension is the ideal accessory to the BRIGON-Smoke Tester and it is very easy to attach. Simply screw the BRIGON-Smoke Tester Extension between the probe and the cylinder. You do not need any tools.

This useful accessory extends the reach of the Smoke Tester by 2 m, if required due to the local circumstances.

Of course the extension meets the requirements on the quality design of Smoke Testers.

Item-No. 4215 BRIGON-Smoke Tester Extension
