

# BRIGON Fixed Price Recertification & Service Program

## Standard Recertification & Service includes:

- ✓ checks and tests of all measuring channels of a flue gas analyser
- ✓ cleaning and software update, if available
- ✓ replacement of internal wearing parts, such as filters, seals, etc.
- ✓ re-calibration & certification for all measuring channels of a flue gas analyser including test report

## Full Recertification & Service includes:

- ✓ checks and tests of all measuring channels of a flue gas analyser
- ✓ cleaning and software update, if available
- ✓ replacement of internal wearing parts, such as filters, seals, etc.
- ✓ replacement of O<sub>2</sub>/ CO/ CO<sub>2</sub> sensors, pump and batteries
- ✓ re-calibration and certification for all measuring channels of a flue gas analyser including test report

## Fixed Price Service Program does not cover:

- ✓ replacement of optional NO sensor, casing or combustion/temperature probes
- ✓ service and repairs resulting from improper use of flue gas analyser
- ✓ delivery charges to or from BRIGON

## Recertification & Service warranty

Each analyser returned to annual recertification, receives a warranty from date of service as follows:

- manufactured within last 5 years: 12 month warranty
- manufactured over 5 years ago: 12 month warranty on fitted parts only

All repairs requested to be sent back to the customer unrepaired are to be charged with 25 Euro handling fee.
